

FIGHT SITE – COMMUNITY BUILDER QUOTATION INFO

www.yet-to-be-named.com is a website designed to connect Fighters and Clubs up with Promoter/Matchmakers and generate interest from avid boxing fans in Australia.

This document only covers the features related to obtaining a quote for the Community Builder componentry.

USERS

There are four different types of users for this website:

- Fighters
- Clubs/Gyms/Trainers
- Promoter/Matchmakers
- Fans

GOALS

Fighters will be able to obtain more fights, raise their profile, extend their network of people in the industry and generate interest from fans. Which should in turn increase the numbers of people at their fights.

Clubs/Gyms/Trainers (herein referred to as clubs for ease of explanation) will be able to promote their training facilities and services and promote their fighters.

Promoter/Matchmakers will be able to easily search the fighter database and using the search filters be able to match up fighters by their style, ability and location. There by solving the current problems they have with antiquated (or non existing) match up systems.

Fans will be able to participate in the sport have input and receive feedback and show the promoters where and with who the demand is for fight competitions.

FEATURES

Fighters will pay and register on the website and create a profile with the fields shown in this document. 90% of the information will be shown to the public. Contact details will be hidden. Fighters should have the ability to PM (Private Message) each other and PM Training / boxing gyms. Participate in discussions and forums, view other boxer's profiles, and search the database of boxers, Gyms and fans. Fighters should be able to request to be linked to a Club if they are a member of that club.

Clubs/Gyms/trainers (these will all fall under the one group) will pay and register on the website and create a club profile. The clubs profile will look different from a fighters profile and should have the ability to link to a fighter's profile (if that fighter is part of the club). Contact details will be shown (if the club wants to). Clubs should have the ability to PM (Private Message) each other and PM fighters. Participate in discussions and forums, view other boxer's profiles, and search the database of boxers, Gyms and fans.

Promoter/Matchmakers will pay and register on the website and create a profile with the fields shown in this document. Their profile information will not be shown to the public (this may change in the future). All contact details will be hidden. Fighters should have the ability to PM (Private Message) each other and PM Training / boxing gyms. Participate in discussions and forums, view other boxer's profiles, and search the database of boxers, Gyms and fans.

Fans will have free access to website, however they will be required to register to participate in discussions etc. (Potentially we could take advantage of the facebook and twitter logins available in CB) They will be able to follow their favorite fighters. Participate in forums discussions. Create a “dream Fight” where they match up two or more fighters and can discuss who they think will win and why. At this stage I would say no access to PM fighters.

INPUT FIELDS

Below is the information that will be required for user profiles and searchable queries via the database. Searchable categories are highlighted red.

FIGHTERS - \$5 – 10 SUBSCRIPTION

ADMINISTRATION - FOR BRAD
