**Site Debug mode: CB redirection with message "Your settings have been saved." without empty output**  
*During its normal operations Community Builder often redirects you between pages and this causes potentially interesting debug information to be missed. When your site is in debug mode (global joomla/mambo config is site debug ON), some of these automatic redirects are disabled. This is a normal feature of the debug mode and does not directly mean that you have any problems.*

Click this link to proceed with the next page (in non-debug mode this is automatic): <http://localhost/buzzart/index.php/user-details>
